Large Antique Danish White Painted Glass Cabinet

What makes this elegant Danish cabinet so unique, is how shallow the depth is - measuring only 20" at the crown molding. Notice how the glass doors and individual panes follow the curve of the crown molding adding to the visual appeal. Recently painted an off white color, the paint has been slightly scraped revealing the darker oak beneath. The upper and lower cabinets have plenty of storage with two removable shelves above and three segregated compartments below. Please take a moment to enlarge the photos and examine the details up close.
