Antique Carved Renaissance Oak Bookcase

Even more impressive in person, the elaborate and detailed hand-carving throughout this entire oak cabinet reminds one how gifted craftsmen and artistic talent were appreciated in the past. Simply examine one small section of this handsome Renaissance style bookcase, and calculate the time it would take to carve the entire cabinet. The interior shelves are adjustable, making this an ideal display cabinet or perfect bookcase. This richly carved oak cupboard shows normal signs of age related wear and has not been restored/refinished since we purchased it in Europe.
