## Antique Danish 2 Door Pine Armoire

The beautiful pine seems to glow with life, taking on a warm patina from age and use in this striking armoire. Impressive in stature, this pine armoire has a strong visual presence as the eye is drawn upward to the delicate carved details of the crown and pilasters that frame the doors. The slightly convex doors have decorative scalloped panels, adding a romantic touch to the piece. It is a two-door over two-drawer formation with the interior fitted with three removable shelves that run the entire width of the cabinet. Two holes were added to allow for electrical cords to run unseen through the back. The armoire is strong with all components working smoothly and has been sealed with a buffed wax finish.
