## Antique Primitive Industrial Work Table With Original Painted Green Drawers

Fun, funky and functional, this old work table is loaded with character. The iron frame is heavy and solid, supporting the 4 large drawers which are secured in place by 2 flat metal rods. Both the drawers and sliding/removeable metal rods still maintain the original teal green paint, worn and distressed over time. This one of a kind industrial table could be used as a unique small kitchen island or coffee bar among other more traditional uses. It has been left in the primitive, original used condition as we discovered it in Europe. The age related separation of the top 3 planks and heavy wear around the edges of each drawer do not impact the strength or usefulness of this 4 drawer industrial table.
