Antique White Painted Swedish Gustavian Chest of Five Drawers

The lovely clean lines of this antique chest of drawers fit the simple and appealing Swedish gustavian look of the dresser. The gently distressed white paint has been worn down to the natural wood where the drawers were most often touched. The white gustavian finish is accented by black painted feet and top. Notice much of the top has been worn and distressed through use to reveal the natural wood as well. Keys will be provide to serve as "pulls" for the drawers just as they were used originally, however, the locks no longer function. Typical age related scratches, dings and wear are commensurate with the circa date and years of use.

This Swedish chest of drawers is part of our "un-restored" collection and is being sold in "as is, used" original condition; how we found it in Europe. You are welcome to contact us directly if you would like to learn more about this or other items, we will be happy to assist you further.
