Antique Simple Black Painted Pine Bench from Hungary

Throughout the European countryside, farmhouses and cottages alike would have simple pine benches such as this one to create easy seating. The gently curved arms and small carved element at the center back are the only decorative elements to this primitive country bench. The black painted finish was added to the pine at some point in time, which makes it quite versatile in today's modern home.

This bench is part of our "un-restored" collection and is being sold in "as is, used" original condition; how we found it in Europe. Notice the signs of use in the dings and wear along edges and feet where the paint has been worn off. You are welcome to contact us directly if you would like to learn more about this or other items, we will be happy to assist you further.
