Antique Baroque Pine Armoire With Heavily Paneled Doors, Denmark

This armoire has dramatic presence thanks to the heavily panelled doors reflective of its baroque style. The stained pine has taken on a deep patina after almost 200 years of use. There is expected age-related wear to the wood (separation of planks, edges worn, etc), and the back panels were replaced at some point in recent history (common for a storage cabinet with generations of use). This armoire has been restored and is in remarkable strong/sturdy condition and can be used and enjoyed for years to come.
