## Pine Chest of Drawers

The beauty of this Danish pine chest of drawers is the simplicity of the lines and the four graduated sized drawers. Notice the gentle curve to the slender top drawer, the center 2 drawers are the same size and all are balanced by the larger bottom drawer. The simple rounded edges along the sides were a traditional style element of the period. Any nicks, scratches, old stains are age related. This pine dresser is fully restored, functionally strong and the natural beauty of the wood is complimented by a wax finish.
