## Mid 19th Century Antique High Boy Large Chest of 5 Drawers Painted Gray

The turned side columns and gentle crown add a refined touch against the clean lines of the simple Danish styling on this pine chest of five drawers. Notice how the top drawer sits forward of the lower four and is accented by long side turned columns. This piece has been professionally restored and given a light wax finish, all drawers function. While this highboy was crafted around 1830, it was given a "newer" dove gray painted finish approximately 50 years ago, now lightly distressed revealing the natural pine wood below. The case is made in 2 sections which rest upon a lower base frame and feet (3 sections in total), and all of the drawers run smoothly. This wonderful highboy chest of drawers is sturdy and ready to be used and enjoyed. Any nicks, scratches, dings or signs of wear are commensurate with age and do not detract from the beauty nor function of this exceptional large chest of drawers.
