Antique 19th Century Romanian Pine Cupboard

This pine cupboard has decorative elements that make it special, such as the turned column accents and carved crown molding details along the top. This cupboard likely displayed the household china and serving ware in the 1800's. The top section is raised with large finials and a paneled back splash used as support, allowing for serving or buffet space between the upper and lower cabinets. The cupboard has been given a wax finish, bringing out the warmth of the natural pine. The drawers run smooth, it is in excellent condition and ready for use.
