Pair of Wide 19th Century Swedish Doors Painted White

This pair of Swedish antique doors are heavy and broad - each one consisting of four raised panels with a large diamond panel on the front, a traditional Swedish style element. They still retain the original iron hardware and distressed/aged white painted finish. Each door is 38.5" wide, allowing for 77" width if both are used. This pair of doors is part of our "un-restored" collection and is being sold in "as is, used" original condition; how we found it in Europe. You are welcome to call us directly if you would like to learn more about this or other items, we will be happy to assist you further.
