Antique 19th Century Karl Johan Yellow Birch Bench From Sweden

Antique Karl Johan Swedish bench is made from lovely yellow birch and has a lovely curved back. This style of bench originally served as a type of spare bed as the bottom could pull out revealing a type of "trundle" bed inside. The seat cushion is removable and the upholstery can easily be changed out if desired for an updated look. This birch bench is part of our unrestored collection and is being sold in as-is, used condition as we found it in Europe. Signs of wear such as scratches/dings particularly along arms, base of arms, feet etc. are commensurate with age and use.

Seat Height: 19"
