Antique Chinese Console Table With Interior Storage

Function, form and interior fashion combine in this narrow console table from China. The two small center doors open to reveal the interior storage area, while the two sliding doors (which flank the center) slide outward allowing you to store throughout the entire interior. The console is solid, level and ready for use while the soft lacquer finish shows of the beauty of the natural elmwood. It does show use/wear around the legs which is typical for a table of this age. It is being sold in as is, used condition. You are welcome to contact us directly if you would like to learn more about this or other items, we will be happy to assist you further.
