## Antique Large Carpenter's Workbench from Denmark with Dark Patina

This wonderful old antique carpenters' workbench, has an incredible dark patina after years of traditional use. The scratches, dings and even touches of spilled paint add to the vintage character of this large work table. It has two wrought-iron vices with metal handle and a recessed tray where the carpenter would lay his tools. The traditional trestle base allowed it to be assembled and taken down /moved more easily. Workbenches such as this are often used as console or sofa tables today. This workbench is being sold as is, in original condition, how we found it in Europe.
