## Antique Danish Carpenter's Workbench

It is the years of constant use revealed in every ding and scratch that enrich the character of this delightful carpenters' workbench from Denmark. Please examine the close up photos to appreciate the patina, joints and old hardware. It has two vices with wood handles and a recessed tray where the carpenter would lay his tools. The traditional trestle base allowed it to be assembled and taken down/moved more easily. Workbenches such as this are often used as console or sofa tables today. This workbench is being sold as is, in original condition how we found it in Denmark.
