## Vintage Leather Arm Chair from Denmark

The straight lines of this vintage leather club chair reveal the changing style happening in Denmark in the 1920's. You can literally "see" in this chair the period was transitioning from the former "turn of the century" style into what would soon become the "midcentury modern look" over the next 20-40 years. This chair has all the original leather, showing wear around the piping and cracking, some tearing at both the top and bottom, and scrape along the back. The seat was replaced or simply covered with the current fabric which we recommend re-upholstering. Seat Height: 16"

This vintage leather club chair is part of our "un-restored" collection and is being sold in "as is, used" original condition; how we found it in Europe. You are welcome to contact us directly if you would like to learn more about this or other items, we will be happy to assist you further.
