Antique Farm Table With Trestle Base from Hungary

At 7.5' long, this old farmhouse table will serve well in today's modern home. The trestle base with pegs made these tables easy to take apart, transport and assemble quickly and easily. Review the close up photos closely and you can even see the residual numbers (2, 4, etc) where a prior owner marked some of the pieces for easier take down and installation. The top of this table was made from 2 long planks, which show minor age related separation and very slight bow which do not impact the function of the table itself, it is level for food, drink glasses, etc. This dining table has been restored so it is in strong/stable condition and given a wax finish bringing out the warmth and patina of the pine. Any cracks, scratches, marks, dings etc. are age related and do not impact the function.
