Antique Original Painted Trunk on Legs Unique Side Table, Sweden

The soft colors of blue and white lovingly detail the floral bouquets on the front and side panels of this unique find. It is actually a flat top trunk raised up on four legs, creating a unique side table with hidden storage. The original brown painted background was the faux folk art style of the era. While the cabinet doors add visual interest, they are a "false front" as the only opening is the hinged top. Any cracks, dings, scratches or distress are age-related. This trunk/side table is a beautiful and unique example of Swedish country craftsmanship. It has been cleaned, waxed and is ready to use and enjoy.
