Antique Gateleg Drop Leaf Wake Table from England

This striking gateleg dining table is also known as an English wake table with drop leaves. Notice the rich brown patina of the oak, aged and naturally distressed over generations of use and lovely turned legs. The large oval shaped top has 2 drop leaves, so when closed it serves as a 22.5" deep console table. Please examine the close up photos to appreciate the richness of the wood; the old scratches, nicks and distress/marks mix with the wood grain adding depth of character. When fully opened at 58.5", the attractive turned gate legs allow 8-10 guests to sit comfortably. This large gateleg wake table has been restored, is strong/stable and ready for use.
