Antique Baroque Chest of Drawers with Blue Painted Finish

Antique baroque chest of drawers from Denmark, circa 1760-1800. The (newer) blue painted finish has been lightly scraped and sanded exposing the natural wood beneath and beautifully highlighting the details of the casework. The contours of the top are repeated in each of the serpentine drawer fronts, which are fitted with ornate brass pulls and key escutcheons. The chest separates into two sections with the top two drawers resting on the base with cabriolet feet and lovely carved flourishes. This item is strong/stable and ready for use; any scratches, dings, marks are commensurate with age. There is a slight warp to the top which does not impact ones ability to rest items upon it (including glass, etc). Please enlarge the photos to examine the details and exceptional painted finish close up.
