## 19th Century Antique 8' Tall Carved Bleached Oak Bookcase Display Cabinet from France

Impressive in every way, this heavily carved oak display cabinet makes a dramatic impression. The remarkable hand carved details include lions/gargoyle, birds, flourishes and more, even along the side panels. The tall glass doors flanked by barley twist columns reveal adjustable shelving along the upper inside, idea for books or any form of display cabinet. Note in photos there are 3 long and 3 short shelves included while the lower cabinet can store larger items as the shelving does not extend to the bottom. This tall bookcase has a bleached oak finish, providing a fresh look for today's modern home. The oak cabinet is in used condition and is strong, stable and ready for use. There are expected age-related cracks that runs along the interior cabinet base which does not impact function nor strength and typical wear related scratches, dings are also present. This large cabinet was designed to break-down into multiple sections (sides, back, top/crown, doors, shelves etc) making transportation and installation easier for such a large wall unit.
