Antique Painted Pine Cupboard Cabinet, Hungary circa 1890

This old pine cupboard has been painted over multiple times in its long life, with current tones of layered pale ochre and white all distressed revealing the natural pine below.

This traditional pine cabinet allows for items to be displayed behind upper glass doors, a central raised area for small buffet or serving, and lower section with two drawers over two cabinet doors.

The cabinet is made in 2 sections - the top can be separated from the base allowing for easier transportation and installation.

Restored, it is in working condition and ready for use. Once key included to use as a pull, locks no longer function.

Any scratches, cracks, dings, stains (inner right drawer) or age related separation are reflective of age and do not detract from the function of this pine cupboard.

Please refer to professional photos for clear understanding of color, condition and details; photo lighting, individual monitor display and home lighting may all impact how item is viewed.
