Large Oak White Painted Chest of Drawers, Denmark circa 1770

This antique rococo large oak chest of drawers features a serpentine front, brass hardware pulls and is raised on large turned feet.

The newer, professionally applied and layered white painted finish has soft gray undertones and is gently scraped and distressed, revealing the natural wood below while complimenting the age and curved lines of the chest.

This dresser has been restored, case is sturdy and drawers are in working order. Two brass pulls and key cover are on each of the drawers.

Built in two sections, locks no longer function.

All scratches, cracks, dings, or age related separation are reflective of age and do not detract from the beauty nor function of this large chest of four drawers.

Please refer to professional photos for clear understanding of color, condition and details. Photo lighting, individual monitor display and home lighting may all impact how item is viewed.
